

Process Insights North America

The Engineering Excellence Network · Oct 1st 2018, Rochester, Michigan

Engineer products for tomorrow
by transforming your processes today

At Process Insights you will learn how to:

- Implement processes as a success factor for your product development
- Master engineering complexity, i.e. in the fields of digitalization, IoT and autonomy
- Conform with industry standards and regulations like Automotive SPICE or Cybersecurity

Profit from:

- New approaches from other industries and companies in the fields of automotive, medical devices and aerospace
- Best practices and insights around Method Park's Stages process management system
- The opportunity to join a community of like-minded professionals

Agenda Process Insights North America 2018

Time	Track A: Process (Room Parlor E)	Track B: Insights (Room Parlor F)
08:30AM - 09:00AM	Registration & morning buffet	
09:00AM - 09:10AM	Welcome and introduction, Method Park	
09:10AM - 09:50AM	Applying lean-agile practices in large, engineered systems Harry Koehnemann, SAFe Fellow and Principle Contributor, Scaled Agile	
09:50AM - 10:30AM	Innovative, cybersecure product development: an oxymoron? Meg Novacek, Consultant System Quality & Cybersecurity, Novacek Services	
10:30AM - 11:10AM	Abstraction layers for the rollout of Automotive SPICE: ASPICE in 6/12/18 months Professor Bernd Hindel, CEO, Method Park	
11:10AM - 11:45AM	Coffee break, exhibition	
11:45AM - 12:15PM	Automatic code generation for autonomous vehicles Bodo Seifert, Engineering Director, DURA Automotive Systems Abdi Zeynu, Sr. Application Engineer, ANSYS	Migration to Stages V7 - practical experience and best practices Sabrina Hofer, Product Consultant, Method Park
12:15PM - 12:45PM	Managing complexity in engineering processes Amit Talwar, Watson IoT Solution Architect, IBM	Beyond process: using Stages to deliver a body of knowledge for product line engineering Paul Clements, Vice President of Customer Success, BigLever Software
12:45PM - 01:45PM	Lunch break, exhibition	
01:45PM - 02:15PM	Agile transformation? For complex systems?...no way! Jeff Brehm, Managing Director, Accenture Industry X.0	Traceability @ scale: for standards, by standards Robert Baillargeon, Vice President, Sodius
02:15PM - 02:45PM	PLM and ALM in a secure process framework for innovative product platforms Bill Bone, CTO Automotive, Aras Corporation	See the future from here - our Stages journey Ronald R Pratt, Pr Software Engineer, Rockwell Collins Tina Wolf, Sr Software Engineer, Rockwell Collins Emily Yoder, Sr Software Engineer, Rockwell Collins
02:45PM - 03:15PM	Coffee break, exhibition	
03:15PM - 04:00PM	Successful process transformation - the Stages strategy & roadmap Erich Meier, CTO, Method Park	
04:00PM - 04:45PM	Panel discussion: achieving engineering excellence together moderated by Professor Bernd Hindel, CEO, Method Park	
04:45PM - 05:00PM	Closing remarks	
05:00PM - open end	Dinner and networking	

Process Insights North America

The Engineering Excellence Network · Oct 1st 2018, Rochester, Michigan

Companies you will meet

- ANSYS
- Aptiv
- Aras
- Accenture
- BigLever
- Bordrin Motor
- BorgWarner
- Continental
- Denso
- DURA Automotive
- Fiat Chrysler
- Ford
- General Motors
- Hancom MDS
- Hirain Technologies
- Honda
- ...and many more
- Honeywell
- IBM
- Kostal
- Magna
- Method Park
- Nexteer
- NVIDIA
- Panasonic Automotive
- Pedco
- Rockwell Collins
- Scaled Agile
- Siemens Healthineers
- Sodus
- UTC Aerospace
- Veoneer America
- ZF

Workshop on Oct 2nd

On the day after the Process Insights conference, there will be a unique workshop

“Process Management 4.0 – Best Practices”

in the Royal Park conference hotel.

The workshop provides best practice methods and techniques for all areas of process management that were accrued in more than 15 years of experience in which Method Park performed worldwide process audits at more than 700 engineering organizations.
